

Achieve3000® is committed to accelerating student literacy. To support this effort, we provide a variety of lesson types which reinforce specific literacy skills. When used in combination, teachers can accelerate the literacy gains of their students and propel them to higher levels of college and career readiness.

Teachers can control lesson delivery and match them to the scope and sequence of their curriculum. In the Teacher’s Edition, the lesson cards on the home page and search results include an icon identifying the lesson type. Most lesson types include resources for teachers to support instructional planning.

## 5-Step Lesson

Description	Benefits	Suggested Uses	Considerations
<ul style="list-style-type: none"> <li>Nonfiction lessons that contain the Ready, Read, Respond Reflect, and Write steps, as well as the Stretch article, and Stretch comprehension questions to build and strengthen reading comprehension skills.</li> <li>Each step is differentiated for the student, with the Stretch article provided at or above grade level.</li> </ul>	<ul style="list-style-type: none"> <li>The lessons integrate reading with writing and emphasize citing evidence from the text.</li> <li>The Stretch article and reading comprehension questions challenge students to further develop critical reading skills.</li> <li>Teacher support materials integrate ideas for ELL and gifted students.</li> </ul>	<ul style="list-style-type: none"> <li>The lessons can be divided over two class periods.</li> <li>Students can work independently or with teacher guidance.</li> </ul>	<ul style="list-style-type: none"> <li>The multiple choice questions in the Respond step help to inform monthly Lexile adjustment.</li> <li>Encourage students to read closely and achieve 75% and greater on their first try.</li> </ul>
